

# Guideline Implementation Masterclass

## *Linking Evidence, Policy and Practice*

**August 28 2011, Incheon Memorial Hall, Korea University Seoul**

*Join us for a one day practical introduction to the art and science of implementing evidence-based practice and guidelines with experts who have both developed and implemented guidelines. The Masterclass is supported by the Guidelines International Network (G-I-N) and the Network's Implementation Working Group. The Masterclass will be held prior to the Guidelines International Network Conference.*

During the Masterclass you will:

- explore and understand the process for implementation through:
  - Identifying barriers and enablers,
  - selecting appropriate interventions, and
  - selecting measures to demonstrate practice change
- start developing a plan for implementation
- network and share practical experience with experts in the implementation of guidelines.

Over the course of the Masterclass we will draw on real examples from Emergency care and primary care. All participants will be encouraged to work on and develop a practical implementation plan for their own evidence-based projects which will meet the needs of policy makers, health practitioners, patients and consumers. The Masterclass will be led by the following members of the G-I-N Implementation working Group:

**Heather Buchan:** Heather is the Director of Implementation Support for the Australian Commission on Safety and Quality in Health Care. Heather is a public health physician whose work has focussed on improving health care quality. She was the Chief Executive Officer of the National Institute of Clinical Studies, established by the Australian government to help close gaps between evidence and clinical practice, from its beginnings in 2001 until it became part of the NHMRC in 2007. Heather was Deputy Chair of the Guidelines International Network from 2007 – 2009.

**Sue Huckson:** Sue Huckson is Director of the Effective Practice Program for the National Institute of Clinical Studies (NICS), an institute of the National Health and Medical Research Council (NHMRC). Sue has led national implementation programs and is known for expertise in developing strategic and innovative approaches to support the implementation of research in complex health environments. Sue has developed a national and international profile for her work in the application of a 'Community of Practice' (CoP) model within the Australian Emergency Care sector and a 'virtual' community in partnership with the Guidelines International Network (G-I-N) to support international collaboration across the emergency care sector.

**Catherine Marshall:** Catherine is an Independent Guideline Advisor from New Zealand with a special interest in guideline implementation. She was the Chief Executive of the New Zealand Guidelines Group (NZGG) and while there initiated a Community of Practice. Since 2006, Catherine has worked on a range of guideline implementation projects in New Zealand including cardiovascular risk and smoking cessation activities. Catherine is also an expert adviser to the NHMRC in Australia and the NHS Evidence in the UK. Catherine has led guideline implementation training workshops in Australia, Malaysia, Singapore and at G-I-N conferences. Catherine was one of the Founders of Guidelines International Network and has been deeply involved in its activities as Deputy Chair 2003/ 2004, a member of the Board of Trustees 2003-2010 and an Honorary Patron of the Network.

**If you would like to join this Masterclass, please contact**

## Guest Speakers

**Sue Phillips:** Sue is the Director of the National Health and Medical Research Council's Research Implementation Program at the National Institute of Clinical Studies. Sue joined NICS in 2001 when it was established by the Australian Government. During this time she has led national evidence implementation programs in hospital and general practice settings on the management of heart failure and prevention of venous thromboembolism. In her current role, Sue is responsible for the development of the NHMRC's research translation network, clinical practice guidelines on the management of volatile substance use and borderline personality disorder and a systematic review on the use of clinical practice guidelines in Australia. Sue is a member of the Guidelines-International-Network Board of Trustees and co-chairs G-I-N's Adaptation Working Group.

**Dave Davis:** Dave is the Senior Director, Continuing Education and Performance Improvement at the Association of American Medical Colleges, Washington, DC and Adjunct Professor, Department of Health Policy, Management & Evaluation, University of Toronto; and Department of Family and Community Medicine, University of Toronto. He is currently the lead for continuing healthcare education and improvement at the American Association of Medical Colleges, Dave was a family physician in Ontario, Canada for nearly forty years. Dave was active in 'CME' as: chairman of an all-staff inter-professional CE program at a community hospital; director of Continuing Medical Education and subsequently chair of continuing education at McMaster University's Faculty of Health Sciences; and founding director of the Knowledge Translation Program in the Faculty of Medicine, University of Toronto; and chairman of Ontario's Guidelines Advisory Committee. Dave and his colleagues' 1995 *JAMA* systematic review of the effect of CME interventions is widely cited as a seminal study in this field., Dave has been chair or president of national or provincial Canadian organizations, two North American organizations (the Alliance for CME and the Society for Academic CME) and the Guidelines International Network.

## Outline for the day

Time	Topic
8.30-8.50am	Scene setting and introductions Broad goals for the day
8.50 – 9.00am	Introduction to case studies (pain management & smoking cessation)
9.00-10.00 am	Understanding Barriers and Enablers to Implementation <ul style="list-style-type: none"> <li>• Introduction to barriers and enablers</li> <li>• identify interventions and stakeholders</li> <li>• Interactive table top exercise</li> <li>• Summary including tools and practical 'how to' tips</li> </ul>
10.00 -10.20am	• Models of implementation (knowledge translation) theory;
10.20- 10.40am	Morning tea and networking exercise
10.40- 11.40am	Identifying the interventions for implementation <ul style="list-style-type: none"> <li>• Prioritising recommendations</li> <li>• Tailoring interventions to overcome identified barriers</li> </ul>
11.40-12.00pm	Implementation Scenarios
12.00- 1.00pm	Lunch/ networking with the G-I-N Board
1.00 – 1.45pm	Putting it all together <ul style="list-style-type: none"> <li>• A general synthesis of implementation approaches</li> </ul>
1.45-2.15pm	Case Study : Multifaceted intervention (VTE in hospital settings a national project)
2.15 - 3.00pm	Making it happen – the reality <ul style="list-style-type: none"> <li>• Interactive session supported by facilitators</li> <li>• Opportunity to work with others to develop your own implementation plan</li> </ul>
3.00 - 3.20pm	Working afternoon tea
3.20- 3.30pm	Continue to work on implementation plans
3.30 - 4.00pm	Report back on Implementation Plans and Closing remarks

**The Cost for the Masterclass is**  
**G-I-N members USD 200 - APEBMN members USD 225 - Non-members USD 300**  
**Lower income countries, students, consumers USD 125**
