

○ About G-I-N

(The Guidelines International Network, www.g-i-n.net)

The Guidelines International Network (G-I-N) is an international not-for-profit association of organizations and individuals involved in the development and use of clinical practice guidelines. G-I-N supports international collaboration to improve the quality of health care by promoting systematic evidence review, rigorous development of clinical practice guidelines, and application into practice. Founded in 2002, G-I-N has grown to include 93 organization members and partners representing 38 countries from Africa, North America, South America, Asia, Europe, and Oceania.

April	2011	Abstract Acceptance Notification
June	2011	Early Registration Deadline

○ Seoul – the Hosting City

The fifth largest city in the world, the Seoul metropolis has a population of about 11 million and is the center for economy, finance, the arts and culture. There is a blend of old and new in Seoul with the modern high-rises and trendy shops

mixed in with ancient temples and palaces. Seoul is known to be one of the safest places to travel in with its low crime rate.

○ Venue – Incheon Memorial Hall, Korea University

The gothic stone building is built on Incheon Hill, Korea University covering nearly two acres, and offers many impressive facilities including a 1,000-seat auditorium, several conference rooms, restaurants and a lounge

Program Highlights

- Presentations by international leaders in guideline, healthcare research and policy.
- Cutting edge advances in scientific development, dissemination, implementation, and evaluation of guidelines to advance health care.
- Satellite methodologies workshop on evidence synthesis and guidelines development.
- Discussion on emerging and underrepresented topics of scientific significance
- Bridge on the disciplines of evidence-based medicine and translational research.
- Network opportunity with guideline developers, implementers, and users from around the world.
