# Guidelines International Network

The Guidelines International network, G-I-N, is a global network, founded in 2003. It has grown to comprise 103 organisational and 110 individual members representing 45 countries from all continents at December 2019. The network supports evidence-based health care and improved health outcomes by reducing inappropriate variation throughout the world.

Our mission is to lead, strengthen and support collaboration and work within the guideline development, adaptation and implementation community. As a major player on the global healthcare quality stage, G-I-N facilitates networking, promotes excellence and helps our members create high quality clinical practice guidelines that foster safe and effective patient care.

G-I-N seeks to improve the quality of health care by promoting systematic development of clinical practice guidelines and their application into practice, through supporting international collaboration.

## Network & Participate

### Regional Communities:

Australia & New Zealand  
Nordic  
North America  
Africa  
Asia  
Arab  
Iberoamerica

### Working Groups:

Accelerated Guideline  
Development  
Adaptation  
AID Knowledge  
Allied Health  
GINAHTA  
G-I-N Public  
G-I-N Tech  
Guidelines  
Collaboration  
Implementation  
Low & Middle Income  
Countries  
Multimorbidity  
Overdiagnosis  
Performance Measures  
Updating Guidelines

## Collaborate & Contribute
